

SACU in Figures – 2022

27 January 2023

Prepared by

Revenue Management Sub-Directorate

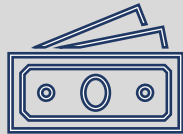

Introduction

This statistical brief compiled by the Secretariat serves as a quick reference to selected basic indicators in the region as of **27 January 2023**. It contains indicators on the area size, population estimates (2022), real sector (2021), merchandise trade (2021), and annual inflation rates (2022). The data source is the SACU statistical database, Statistics Offices and Central Banks in the Member States.

Highlights

Population in SACU grew from 65.5 million in 2018 to 68.9 million in 2022

The economy was estimated at R6.8 trillion in 2021, compared to R6.0 trillion recorded in 2020

SACU recorded a trade surplus of R323.9 billion in 2021 with the rest of the World

SACU's Harmonised Consumer Price Index recorded 6.2 percent in 2022 compared to 5.8 percent in 2021

Land Area (km²)

Land area in SACU is 2,674,424 km².

By Member States, the land area is outlined as follows: 582 000 km² in Botswana, 17 364 km² in Eswatini, 30 355 km² in Lesotho, 825 615 km² in Namibia, and 1 219 090 km² in South Africa.

Population Estimates

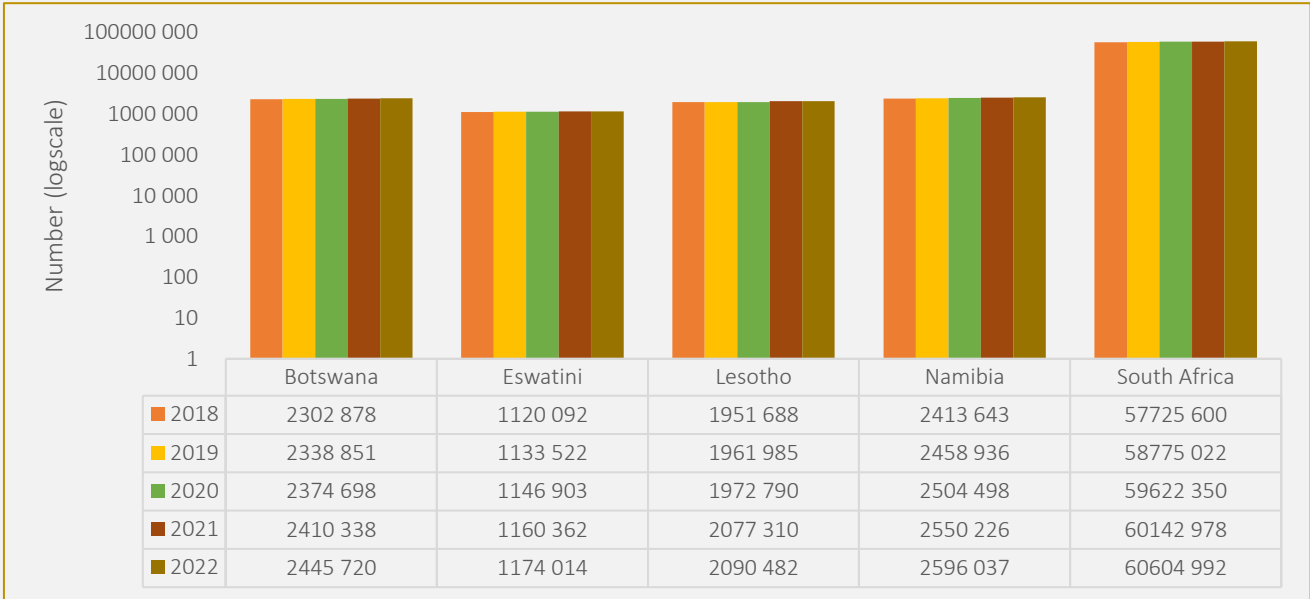

SACU population grew linearly over the past five years, increasing from 65.6 million in 2018 to 68.9 million in 2022.

Figure 2: SACU Population (de facto) over the years, 2018-2022

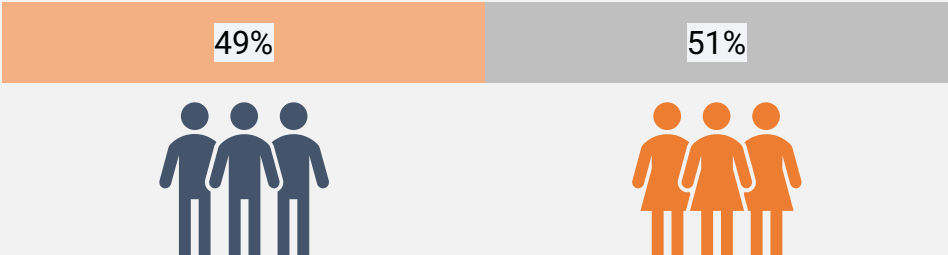

For some SACU Member States, the population seems to plateau in some years.

Figure 3: Population in SACU Member States, 2018-2022

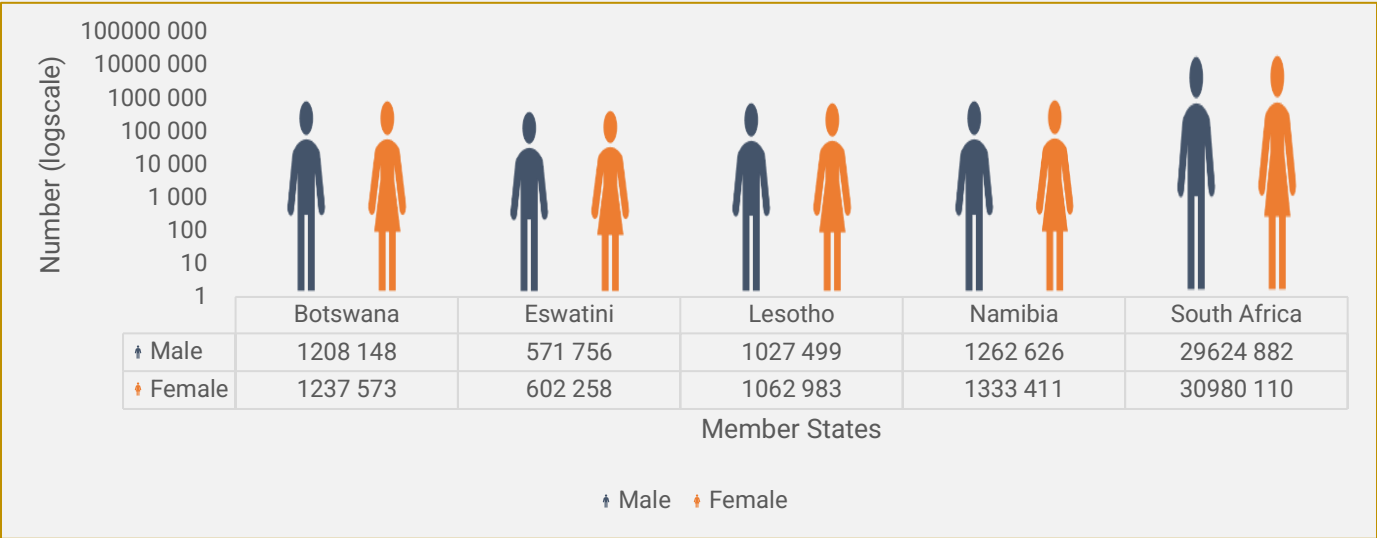

In 2022, females in SACU accounted for the largest share of the total population, registering 51 percent of the population.

Figure 4: SACU Population by Sex, 2022

A similar pattern is observed across Member States, still, with females accounting for the largest proportion.

Figure 5: Population of SACU Member States by Sex, 2022

Gross Domestic Product

Gross Domestic Product (GDP) in SACU was estimated at R6.8 trillion in 2021, from R6.0 trillion recorded in 2020. The economy grew by 5.1 percent after contracting at a pace of 6.4 percent recorded in 2020.
